Product Application

NKDRSY Medical X Ray Vertical Mobile Manual Type Bucky Stand for DR offers solutions for all the diagnostic imaging needs of hospitals, clinics and private practices. It offers max stability and effort-less movement. Medical X Ray Chest Radiography Stand can be used together with the medical X-Ray machine for the checkup of head, chest, stomach, pelvic cavity etc to get the exact diagnoses. The extended vertical travel track allows for skull examination of tall patients as well as lower extremity exposure. The vertical movement is locked by the mechanical brake handle.

It can be installed different types of flat panel detector DR or CR cassette for radiography!
